APPEAR AT POLICE
HEADQUARTERSReorganization of the Ogden city po-
lice department is progressing steady-
ly, with the plans as outlined by Com-
missioner J. R. Ward, in charge of the
public safety department gradually
taking shape. The reorganization
plans call for a material reduction in
the number of men.At the time the new administration
took office the police department con-
sisted of forty-eight men. At the pres-
ent time there are thirty-one men on
the force, aside from men doing spe-
cial duty as watchmen and guards at
the different industrial plants. It is the
plan, according to Commissioner
Ward, to reduce the force to a total
of twenty-eight men. This force will
be divided as follows:One captain of police, one chief of
detectives, one sergeant, five detec-
tives, twelve patrolmen, eight uni-
formed and four plain clothes men
on duty all the time, three desk ser-
geants, three chauffeurs, two traffic
officers and one guard and watchman."We propose to have a school for
police officers," said Commissioner
Ward. "In this school we will teach
the officers their legal rights, traffic
regulations and criminal work. We
propose to make the police department
efficient in every way and with that
end in view we are making the
changes and reductions in the force as
have been made public."I am anxious to reorganize the
traffic system as now in effect, if that
is made possible for me. We don't
want any more 'small town' traffic
stuff. If it can be done, I propose to
install a modern semaphore system
at the main intersections in the busi-
ness district and make Ogden's traf-
fic system correspond with the size
of the city.""Another thing we need here and a
thing I will try to get is a plan where-
by traffic can be warned of the ap-
proach of the fire trucks. I want to
install large gongs at Twenty-fourth
and Twenty-fifth streets and Wash-
ington that may be sounded when it
is necessary for the fire department
to travel those streets in answer to a
fire alarm, thus warning traffic so
that the streets can be cleared for the
fire apparatus."With the changes going into effect
in the police department the follow-
ing men have been released or trans-
ferred: George Watts, former desk
sergeant has been transferred to the
plain clothes division. Barlow B. Wil-
son, formerly with the police depart-
ment, has been named to succeed him.
Charles Bass, formerly traffic officer
at Twenty-fourth and Washington ave-
nue, has been transferred to the plain
clothes department. He is succeeded
by Michael Shaughnessy.Walter Richey, desk sergeant, has
been released, as has Charles Blair, de-
tective.
George Wardlaw, long time Ogden
detective, has returned to the service
as successor to Blair. Charles E. Lie-
ser has succeeded W. L. Neely as
night chauffeur.

SANCTUARY PLANS ARE
PROCEEDINGAt Hestmark, president of the Weber
Rod and Gun association, has announc-
ed that descriptions of property to be
included in the proposed game sanctu-
ary, have been submitted to State
Game Commissioner Siddoway for ap-
proval.The descriptions submitted were
compiled with the view to giving the
exact locations of corners and bound-
aries. Roughly, the proposed sanctu-
ary for game includes all territory
between the south side of North
Ogden canyon and the north side of
Weber canyon. Territory between the
base of the mountains east of Ogden
and the city wells in Huntsville is also
included in the sanctuary.Owners of property in Ogden canyon
are reported as being very much in
favor of the proposition and thus far
Mr. Hestmark states, there has been
no dissenting voice raised against the
plan.It is anticipated that stockmen who
range cattle in the territory which
will be embraced by the sanctuary,
will have no objection, inasmuch as
their cattle will be protected from ir-
